

BANK FEE CONTROL

Bank Fee Portal

Check every bank charge against what you actually agreed, line by line.

Overcharges slip through because nobody reconciles fees against the agreement.

HOW IT WORKS

1

Load

Every bank statement and fee line, from every account.

2

Match

Each charge against your negotiated agreement.

3

Flag

Every variance, with a line-level trail behind it.

What it **recovers**

- + Overcharges that would otherwise be paid without a second look
- + The audit trail behind every fee, in one place, not scattered across statements
