

THE AI OPERATING LAYER

OnePilot

The governed AI layer that runs your treasury apps. In production now.

HOW IT FITS TOGETHER

OnePilot the governed AI layer

Market Data Hub · Smart Trading · Remittance Gate · Bank Fee Portal

SAP and non-SAP, bi-directional, across your landscape

WHAT IT DELIVERS

- ◆ It asks, automates and acts across the applications, always inside your controls.
 - ◆ Anomaly detection, segregation of duties and four-eye approval come as standard.
 - ◆ Build your own apps and automations without writing a line of code.
 - ◆ Run by exception; your team stays in command.
- ◆ codeless framework | ◆ manage by exception | ◆ controls built in | ◆ acts across apps
