

TRADE CAPTURE

Brisken Smart Trading

The trade lifecycle from venue to booked deal, straight through. No re-keying.

Formerly Trade Automation / TraderPlus, now Brisken Smart Trading (BST).

01**Decide & approve**

decision, approval, execution

02**Execution venues**

FXall, Bloomberg FX GO, 360T, BidFX

03**SAP TRM**

deal created straight through

WHY IT MATTERS

Treasury desks still re-key trades from the venue into SAP TRM by hand: slow, a control risk, and it breaks the moment a venue changes a field.

WHAT IT DELIVERS

- ◆ Captured at the venue and created in SAP TRM straight through, validated on the way in.
- ◆ Venue and TMS agnostic, so a new venue is a configuration change, not a rebuild.
- ◆ Four-eye approval and segregation of duties built in, with no ABAP and no per-venue interface.

- ◆ no re-key
- ◆ venue + TMS agnostic
- ◆ four-eye + SoD
- ◆ straight-through
