

## BANK FEE CONTROL

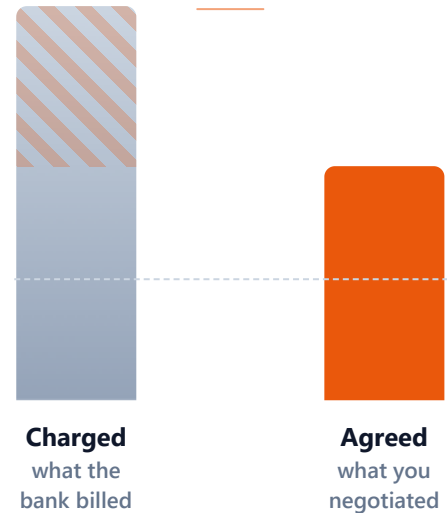

# Bank Fee Portal

Check every bank charge against what you actually agreed, line by line.

Bank fees are hard to check against what was actually agreed, and overcharges slip through because nobody reconciles them line by line.

- ◆ Charged fees are compared to your negotiated agreements, and every variance is flagged.
- ◆ The whole reconciliation stays in one place, with a line-level trail behind each flag.

## CHARGED VS AGREED

## LINE BY LINE

|                       |         |
|-----------------------|---------|
| Wire transfer fee     | matches |
| FX conversion margin  | flagged |
| Custody & safekeeping | matches |
| Cash management fee   | matches |
| Payment processing    | flagged |

## HOW IT WORKS

- 1 Load**  
every bank statement and fee line
- 2 Match**  
each charge against your negotiated agreement
- 3 Flag**  
every variance, with a line-level trail

- ◆ agreement-checked
- ◆ line by line
- ◆ variance flags
- ◆ recover overcharges
