

REMITTANCE PROCESSING

Remittance Advice Gate

AI reads the remittance and posts it. No one retypes anything.

Already in production: **one S/4HANA customer removed the manual step entirely.**

- ◆ An LLM reads the unstructured email or attachment, structures it, and posts to S/4HANA.
- ◆ Matches happen on the way in, so clean items flow through and only exceptions surface.

◆ LLM-read | ◆ auto-matched | ◆ exception-only | ◆ live today
