

THE COCKPIT · ON YOUR SAP DATA

TreasuryCentral

The single screen treasury works in, on your SAP data.

THE PROBLEM

Treasury runs across cash, investments, debt, FX and market data in separate tools, with governance bolted on after the fact.

HOW IT WORKS

TreasuryCentral THE COCKPIT

Cash

Governance

SAP

On your SAP data SAP ECC / S/4HANA, every move governed and logged

WHAT IT DELIVERS

- ◆ See the position and act on it in one place, across cash, investments, debt, FX, market data and governance.
- ◆ Every move governed and logged, on your SAP data, with no separate data store to reconcile.
